EDUCATION

BANGALORE INSTITUTE OF TECHNOLOGY

BE in CSE(Data Science) - CGPA 8.6

12 2022 – Present

Bangalore, India

SRI CHAITANYA PU COLLEGE

Higher Secondary - 93% CBSE

2020 – 2022

Karnataka, India

TECHNICAL SKILLS

Languages & Frameworks: Python, Java, C, SQL, HTML5, CSS3, JavaScript

Developer Tools: VS Code, Git and Github

Databases: MySQL, PL/SQL

Cloud & DevOps: JNCIA-Cloud (Juniper Certified)

AI & ML: PyTorch, Scikit-learn, Transformers, Google Gemini API, NLP, TensorFlow

INTERNSHIP

COMPSOFT TECHNOLOGIES

05 2024 – 06 2024

Full stack Intern | Html, CSS, Python

Bangalore, India

- Engineered a full-stack web application for a local snooker club using Python, Flask, and MySQL, successfully managing over 100 weekly bookings and member data.
- Designed and implemented a normalized relational database schema to store user profiles and reservation details, improving data retrieval efficiency by 30%.
- Integrated automated email confirmations and low-code logic for reservation management, aligning with digital workflow automation principles.

PROJECTS

Skill Lens: AI-Powered Student Feedback [↗](#) | PyTorch, Transformers, Gemini API, React

Aug 2025

- * Built an AI-driven sentiment analysis platform using DistilBERT, fine-tuned to improve neutral sentiment detection accuracy by 25% and overall model reliability.
- * Integrated the Gemini API for intelligent suggestion generation, reducing response time from 2–3 minutes (Gemma3) to 10–15 seconds, a 90% performance gain.
- * Designed a scalable, multi-domain feedback engine applicable across engineering, medical, commerce, MBA, and law, delivering personalized skill insights for students.

City Wide Rental Analysis Dashboard [↗](#) | Power BI, Excel, Data Visualization

Dec 2024

- * Designed an interactive Power BI dashboard to analyze city-wide rental trends across multiple localities.
- * Visualized key insights such as median rent budgets, preferred furnishing types, and occupancy timelines using dynamic charts and maps.
- * Automated KPI tracking (e.g., rent distribution, required sqft range, and location-based analysis) for enhanced business insights.

CERTIFICATIONS

- Cloud (JNCIA-Cloud Associate) [↗](#)
- A simplified Approach To SQL-Udemy [↗](#)
- 100 Days of Code - The Complete Python Pro Bootcamp [↗](#)
- Oracle Certified AI Foundations Associate [↗](#)
